1952 THIRD QUARTER REPAIR PLAN FOR GDR SHIPYARDS 412 pp; German; Place acquired:  
[redacted] Date of distribution: 16 July 1952: Date of information: [redacted]

25X1X

The document consists of [redacted] pages, dated 15 May 1952, containing the Repair Plan of the third quarter of 1952 for various German Shipyards. The plan was drawn up by the Directorate General for Water Transport (GDS) and addressed to all shipyards. The first page is a transmittal letter and requests the shipyards to notify the GDS whether or not this plan fully exploits the yards capacity. The document states further that the shipyards have to enter certain specified contracts with their customers between 25 May and 15 June 1952 and have to submit contract copies to the GDS by 15 June 1952.

25X1A

The document contains repair plans for the following shipyards: Kueste (9 vessels, maintenance repairs); Rechlin (2 vessels, general and maintenance repair); Zehdenick (8 vessels, new investment, general and maintenance repairs); Malz (33 vessels, new investments, general and maintenance repairs); Fuerstenwalde (16 vessels, general and maintenance repairs); Rathenow (17 vessels, general and maintenance repairs); Genthin (19 vessels, new investments, general and maintenance repairs); Tangermünde (14 vessels, new investment, general and maintenance repairs); Magdeburg (5 vessels, maintenance repairs); Frohse (8 vessels, general and maintenance repairs); Laubegast (5 vessels, general and maintenance repairs). The plans for the shipyards contain the following information: identification of vessel (number, name or type); owner; horsepower; tonnage; type of repair; remarks.
